First Sessions

All in the ‘ohana
9:15-10:30, Olona 205
Facilitator: Colette Higgins
Ten KCC faculty recently spent a Saturday working in a lo’i kalo (taro patch) to learn about the ‘ohana (family). You’re invited to listen to them as they share about their experience and the impact it has had on their teaching.

Camtasia: Make movies by recording your PC Desktop!
Facilitator: Hank Snider
9:15-10:30, Kopiko 103
You can demonstrate anything from the web or your files to someone sitting next to you at your computer, right? Turn that demo into a movie with sound and put it online for 24/7 access!

Games on the Lawn with Dave Chong
9:15-10:30, The Great Lawn
Game-based physical activity for promoting stress reduction, collaborative play, and positive health & well-being. (or) “Chucking eggs at each other for the sake of blowing off steam.”

Gentle Yoga with Doug Crowell
9:15-10:30, Chapel
Yoga is an opportunity to become more of your body. Using the breath and body positions, individuals can release tension that they might be holding in their body. Our bodies develop tension as the result of the stresses that we encounter during the day. Yoga can be an excellent stress management technique.

Introduction to PowerPoint (for beginners)
Facilitator: Jacie Moriyama
9:15-10:30, Kopiko 102
How to use PowerPoint for those with little or no PowerPoint experience. You’ll make professional-looking slides shows using basic features such as inserting clip art, graphics, animation, transitions, and the AutoContent Wizard.

Living Community: Ho’okipa me ke Aloha (Ahu-pua’a)
Presenter: Palakiko Yagodich
9:15-10:30, Naio 203
This training looks at the host culture of Hawai’i and incorporates Hawaiian culture, value system, and language into the workplace to share not only with fellow employees but our customers and students that we serve on a daily basis.

Templates for MS Word, PowerPoint & Excel
Facilitator: Bill Talley
9:15-10:30, Kopiko 202
Save time and make attractive documents with free templates from the web including calendars, brochures, invitations, flyers, and slide designs. If you have some experience with Word, PowerPoint or Excel but little or no experience with graphic design, templates can make you look like a pro!

What the Health does Body Composition and Metabolism have to do with Fitness?
Presenter: Ron Dunn
9:15-10:30, Koki’o 202C
You will be able to measure your own body composition quickly and easily with a Bioimpedance scale, and discuss insights from recent research about the connection to health. You may be surprised! Metabolism measurements will be demonstrated and the relationship to body composition, health, and fitness will also be discussed. These assessments are not commonly available, and we are fortunate to be able to offer them to our faculty.

"What's Information Literacy, and how can my students get some?"
Presenter: Kevin Roddy
9:15-10:30, Kopiko 104
Learning Information Literacy Online (LILO) is a Web-based program that UH Librarians have created that approaches research paper writing step-by-step with a fair amount of interactivity. Students can document their progress on a specific topic, allowing an instructor to see a student's thought process as s/he explores a topic and refines it to an acceptable thesis.
Second Sessions

**Templates for MS Word, PowerPoint & Excel**
Facilitator: Jacie Moriyama
10:45-Noon, Kopiko 202
Save time and make attractive documents with free templates from the web including calendars, brochures, invitations, flyers, and slide designs. If you have some experience with Word, PowerPoint or Excel but little or no experience with graphic design, templates can make you look like a pro!

**Gentle Yoga with Doug Crowell**
10:45-Noon, Chapel
Yoga is an opportunity to become more of your body. Using the breath and body positions, individuals can release tension that they might be holding in their body. Our bodies develop tension as the result of the stresses that we encounter during the day. Yoga can be an excellent stress management technique.

**More About Our e|Portfolio**
Facilitator: Zoe Shinno
10:45-Noon, Kopiko 104
This is a follow up session for those who attended e|Portfolio training last year. Learn more about it by using the basic features of the e|Portfolio program.

**PowerPoint Power User**
Facilitator: Mary Hattori
10:45-Noon, Kopiko 102
Experienced PowerPoint users can become Advanced or Power users by attending this workshop. You’ll learn to use advanced features such as hyperlinks, change slide masters, add narration and timing.

**Read & Share: Student Self-Regulation**
Facilitator: Raffaella Negretti-Holland
10:45-Noon, 'Iliahi 231F
Join a discussion with faculty who will share their effective classroom practices within the framework of educational psychology theories presented in articles read before the discussion session. Articles to be provided prior to the session.

**Real World Learning Objects Engage Math and Science Students**
Presenters: Maria Bautista, Mary Beard and Karl Naito
10:45-Noon, Naio 203
Real World Learning Objects are internet-based activities focused on specific topics. They are engaging activities that use unique and compelling resources and focus on inquiry-based and/or problem-solving activities that are relevant to students.

**StudyMate: Create online games for your students**
Facilitator: Hank Snider
10:45-Noon, Kopiko 103
Studymate uses text questions to make flash cards, matching questions, crosswords, and other word games for your students. It also interfaces with WebCT for easy import into your online course.

**What the Health does Body Composition and Metabolism have to do with Fitness?**
Presenter: Ron Dunn
10:45-Noon, Koki’o 202C
You will be able to measure your own body composition quickly and easily with a Bioimpedance scale, and discuss insights from recent research about the connection to health. You may be surprised! Metabolism measurements will be demonstrated and the relationship to body composition, health, and fitness will also be discussed. These assessments are not commonly available, and we are fortunate to be able to offer them to our faculty.
